

Dear Dr. V.S.V Prasad,

My daughter Sharon was admitted in this hospital (Lotus children hospital) on 30/7/10 with bilateral pneumonia and in critical condition. She was discharged later on 10/8/10.

I would like to share my experience of our 10 day ^{stay} in this hospital. When we arrived here in emergency condition, the way duty doctor responded both in Emergency and ICU are worth appreciating. We have been counselled every day about her condition by Dr. Anvi Doyal and Dr. Naveen. The duty ^{doctors} were very friendly and available all the time. Our special thanks to the nursing staff, sis. Nisha, Jessi, Anusmita, who have nursed back my daughter to good health with timely medication and utmost care.

I believe Lotus children hospital is setting high standards in healthcare industry with world-class infrastructure and more importantly service which I have experienced best, I haven't come across so far this kind of quality service. It's not only value for money but beyond I ^{could} ~~express~~ express. We are very privileged to have ~~have~~ hospital like this in our city. I hope same standards would be maintained in the years to come and set example for others to follow. Once again as a family we thank all the fraternity and wish all the best!
