

Disclaimer Notice

All investigations, tests performed will indicate only the current status of your child's health. The tests cannot predict future diseases and the reports will be interpreted by our consultants "as of now"

Radiological tests involve minimal radiation exposure with the latest generation High Speed Dual Slice CT Scanner.

Childhood Diseases can start at any age and a disease very early in evolution cannot be detected by tests.

Please interpret the reports with caution and discuss with your Pediatric Consultant.

Frequently Asked Questions : FAQs

- ? How often should I get my Child's Health Screened**
 - a Ideally once a year is sufficient
- ? What are the timings for Child Health Screening Programmes**
 - a Screening programmes will be conducted between 10 am and 5 pm. If your child is screened in the evening, some tests may need to be done the next day.
- ? Will there be any additional cost involved for these screening Programmes**
 - a If your child has already been registered with our hospital there will be no additional charges, otherwise a registration charge of Rs.75/- will be collected. In case intravenous sedation / anesthesia is required for performing a CT scan there will be an additional cost involved.
- ? How long will the screening process take**
 - a Screening takes approximately 2-3 hours to complete for the basic programmes. The extensive programmes will take longer.
- ? Will I be able to talk to a Consultant Pediatrician about my Child's problems**
 - a Yes
The growth & medical examination and counseling will be Performed by a consultant pediatrician.
- ? Do you perform Screening Programmes on Sundays and Public Holidays**
 - a No
Since Screening involves the role of many specialists, all Programmes are conducted on regular working days only.
- ? If a problem is identified in my child, What should I do**
 - a The consultant pediatrician involved in the screening process will advise you about treatment and any cross consultations with our pediatric specialists.

*Master Health
Checkup for Kids*
(Child Health Screening Programmes)

Dear Parents

We extend a warm welcome to our exclusive Children's Hospital, the very first of its kind in India. We provide a totally integrated, complete spectrum of medical and surgical services for children. Just as we adults undergo regular "Master Health Checkups" at corporate hospitals, it is also essential that your child / children undergo annual physical examinations and laboratory testing. Many childhood illnesses, particularly those pertaining to growth, disease of various organ systems, etc can be detected by screening. As a gesture of our commitment to the health of the child, we have devised various Health Screening Programmes for children to detect early disease.

Please discuss with our Front Office Coordinator / Executives for performing any of our programmes for your child / children.

Well Baby Screen (Basic)

Birth to 1 yr of age

This Package includes:

- ◆ Growth & Developmental Assessment and counseling by Consultant Pediatrician
- ◆ Nutritionist / Dietician Consultation
- ◆ Routine Blood tests (CBP, AST, ALT, Na/K/Ca/P/ALP, S.Creat, RBS)
- ◆ Routine Urine Analysis
- ◆ Routine Stool Analysis

Total Cost
Rs.1000/-

Well Baby Screen (Extensive)

Birth to 1 yr of age

This Package includes:

- ◆ Growth & Developmental Assessment and counseling by Consultant Pediatrician
- ◆ Consultation with Pediatric Surgeon
- ◆ Nutritionist/Dietician Consultation
- ◆ CT Scan Brain (Plain)*
- ◆ Ultrasound of Whole Abdomen
- ◆ Routine Blood tests (CBP, AST, ALT, Na, K/Ca/P/ALP, S.Creat,RBS)
- ◆ Routine Urine Analysis
- ◆ Routine Stool Analysis

Total Cost
Rs.2500/-

* Minimal radiation exposure with High Speed Dual Slice CT Scanner. Procedure may require oral / intravenous sedation/anesthesia with an additional cost of Rs. 500/- for intravenous sedation and Rs. 1500/- for Anesthesia

Well Child Screen (Basic)

1 yr to 16 years of age

This Package includes:

- ◆ Growth & Developmental Assessment and counseling by Consultant Pediatrician
- ◆ Nutritionist/Dietician Consultation
- ◆ Routine Blood tests (CBP, AST, ALT, Na/K/Ca/P/ALP/S.Creat,RBS)
- ◆ Routine Urine Analysis
- ◆ Routine Stool Analysis

Total Cost
Rs.1200/-

Well Child Screen (Extensive)

1 yr to 16 years of age

This Package includes:

- ◆ Growth & Developmental Assessment and counseling by Consultant Pediatrician
- ◆ Consultation with Pediatric Surgeon
- ◆ Nutritionist/Dietician Consultation
- ◆ CT Scan Brain (Plain)*
- ◆ Ultrasound of Whole Abdomen
- ◆ Routine Blood test(CBP,AST,ALT,Na,K/Ca P/ALP,S.Creat,RBS)
- ◆ Routine Urine Analysis
- ◆ Routine Stool Analysis

Total Cost
Rs.3000/-

* Minimal radiation exposure with High Speed Dual Slice CT Scanner. Procedure may require oral / intravenous sedation/anesthesia with an additional cost of Rs. 500/- for intravenous sedation and Rs. 1500/- for Anesthesia

Assessment For Child Adoption

This Package includes

- ◆ Growth & Developmental Assessment And counseling by Consultant Pediatrician
- ◆ Consultation by Pediatric Surgeon
- ◆ Assessment by Child Psychologist
- ◆ Ophthalmology Assessment
- ◆ ENT Assessment
- ◆ Echocardiogram
- ◆ Nutritionist/Dietician Consultation
- ◆ CT Scan Brain(Plain)*
- ◆ Ultrasound of whole Abdomen
- ◆ Routine Blood tests (CBP, AST, ALT, Na/ K/Ca/P/ALP/S.Creat, RBS)
- ◆ HBsAg, HCV, HIV I & II
- ◆ Routine Urine Analysis
- ◆ Routine Stool Analysis

Total Cost
Rs.10,000/-

Testing and evaluation may take upto 4 days as multiple specialists consultations are involved

*Minimal radiation exposure with High Speed Dual Slice CT Scanner Procedure may require oral/intravenous sedation/anesthesia

Please follow the simple 4 step procedure:

1. Tear off this section at the perforation
2. Select and tick appropriate box
3. Meet Front Office Coordinator / Executive and show this card with your Selection
4. Please sign up the child for the programme

Informed Consent for Performing Children's Health Screening Programmes at Lotus Children's Hospital

I would like to have my Child Screened :
